RS&H EXPANDS TOLLS/PROGRAM MANAGEMENT PRACTICE WITH THE HIRE OF TWO NEW VICE PRESIDENTS

HOUSTON – Dec. 6, 2011 – RS&H, one of the nation’s leading facilities and infrastructure consulting firms whose client-centered program structure provides value-added solutions to clients around the world, has hired Kevin Hoeflich and Jerry Ramos as Vice Presidents of its Transportation Program. Hoeflich brings more than 25 years of experience in the design and management of transportation and toll-related projects across the U.S. and will serve as the firm’s Tolls/Program Management Market Leader. He will be supported by Ramos who also brings over 20 years of experience in the transportation and tolls sector.

“User-financed toll facilities offer a viable option for improving mobility in the face of the nation’s current transportation funding constraints,” said Dave Sweeney, Senior Vice President of Transportation at RS&H. “Both Mr. Hoeflich and Mr. Ramos will be instrumental in assisting our clients evaluate and manage toll-related programs, as well as capitalize on new tolling technology.”

Hoeflich will be responsible for expanding RS&H’s client base with tolling authorities across the U.S., as well as expanding the firm’s program management services with new and existing clients. Prior to joining RS&H, he led the national tolls division of a nationally ranked consulting firm and served as the Program Director under the general consultant contract for Florida’s Turnpike Enterprise. He has been involved in numerous new alignment expansion projects, as well as all-electronic tolling conversion and managed lanes projects throughout the U.S.

A registered professional engineer, Hoeflich received his M.B.A. from Dowling College in Long Island, N.Y., and a B.S. in Civil Engineering from the University of Dayton, Ohio. He is an active member of the International Bridge, Tunnel and Turnpike Association, serving as a member of the Finance Standing Committee, former Chief Meeting Organizer, Chair of the Young Members Committee, and a Leadership Academy Graduate.

Prior to joining RS&H, Ramos led the central region transportation practice of a nationally ranked consulting firm and served as the General Engineering Consultant Program Manager for two multi-billion dollar transportation projects in Texas – Grand Parkway (SH 99) in Houston and the Central Texas Turnpike System.

Ramos received his Bachelor's degree in Civil Engineering/Construction Management from the University of Houston. He is an active member of the International Bridge, Tunnel and Turnpike Association and TeamTX, the transportation and expressway authority membership of Texas.

About RS&H:

With a tradition that began in 1941, RS&H is one of the nation's leading facilities and infrastructure consulting firms whose client-centered program structure provides value-added solutions to clients around the world.
