New Guide for Technical Assistance for Accessing Federal Resources and Funding Opportunities

On September 12, 2023, the White House announced the availability of a new guide to help nontraditional applicants for federal funding navigate, access, and deploy the resources available in the Infrastructure Investment and Jobs Act (IIJA) and the Inflation Reduction act (IRA). The guide highlights new resources that offer technical assistance from more than 100 assistance programs aiming to help new grant applicants access and deploy federal funding. It also provides information on the growing number of state programs designed to aid communities in winning funding under IIJA and IRA. See the guide [here](#).
