

TRANSPORTATION POLICY AND FINANCE SUMMIT

REAL CHALLENGES: REAL SOLUTIONS

MARCH 13-15, 2016

WASHINGTON, DC

Hosted by

PROGRAM

International Bridge, Tunnel and Turnpike Association

TRANSPORTATION POLICY & FINANCE SUMMIT

Real Challenges: Real Solutions

Welcome to Washington, DC! This is a critical time for America's road infrastructure. Now more than ever, states and cities confront huge funding needs to rebuild and maintain vital roads and bridges. During this Summit, experts from the public and private sectors will explore an array of solutions to the transportation funding crisis. Featured topics include greater reliance on tolling, road usage charging and policies that promote investment in the types of roads that will yield the biggest improvements in mobility and economic growth. We hope you enjoy the Summit and we look forward to a very productive few days together.

—The DC Meeting Planning Group

ABOUT OUR HOSTS

The Airports Authority is not taxpayer-funded but is self-supporting, using aircraft landing fees, rents and revenues from concessions to fund operating expenses. The Dulles Development Program is funded by bonds issued by the Airports Authority, Federal and State Airport Improvement Program funds and Passenger Facility Charges. The Dulles Corridor Metrorail Project is funded by the Airports Authority and its project partners in Fairfax and Loudoun Counties, the Commonwealth of Virginia, the Federal Government and from revenue generated by the Dulles Toll Road. www.mwaa.com

Transurban is a toll road owner and operator with interests in the United States and Australia. The company's focus is on partnering with governments to deliver roads that meet community needs over the long term. Transurban's U.S. headquarters is in Alexandria, Virginia. Transurban employs around 1,000 people and serves customers across its 14 toll roads – including more than 3 million customers on the 495 and 95 Express Lanes in Northern Virginia. The company is a Top 20 company on the Australian Securities Exchange. Transurban has an agreement with the Virginia Department of Transportation to manage and operate the 495 and 95 Express Lanes. www.transurban.com

The Virginia Department of Transportation (VDOT) is responsible for building, maintaining and operating the state's roads, bridges and tunnels. It also provides funding for airports, seaports and rail and public transportation through the Commonwealth Transportation Board. Virginia has the third-largest state-maintained highway system in the country, just behind North Carolina and Texas. www.virginiadot.org

TECHNICAL TOUR

MWAA MULTI-MODAL PARTNERSHIPS

Sunday, March 13, 2016

9:00am – Noon

Fee: \$35.00 per person

- Tour is open to registered delegates.
- Buses will load from the hotel lobby entrance at 8:45am.

FINANCE ROUNDTABLE

Sunday, March 13, 2016

2:00pm – 5:00pm

Fee: included in registration

CPE: Up to three (3) hours

Space is still available for this session. Visit the IBTTA registration desk for information.

ABOUT IBTTA The International Bridge, Tunnel and Turnpike Association (IBTTA) is the worldwide association for the owners and operators of toll facilities and the businesses that serve them. Founded in 1932, IBTTA has members in 20 countries on six continents. Through advocacy, thought leadership and education, members are implementing state-of-the-art, innovative user-based transportation financing solutions to address the critical infrastructure challenges of the 21st Century.

Meetings app

BADGES: Badges are required to gain entry into all sessions. In consideration of other attendees, please wear your name badge to all scheduled functions.

White: Delegate (Member) **Blue:** Companion/Guest **Yellow:** Media
Orange: Delegate (Non-member) **Green:** Exhibitor

CERTIFICATION MAINTENANCE: IBTTA will forward a certificate of attendance to all who sign the attendance form at the IBTTA registration desk.

COMPETING EVENTS: It is against IBTTA policy for other organizations to schedule events or meetings during the program.

CONSIDERATIONS: During the meeting, please silence all cellular phones and take side conversations outside of the room.

DRESS: Business or business casual is encouraged for all sessions.

MEDIA: Members of the media are permitted to attend sessions only and can be identified by green ribbons on their badges.

MEMBER PUBLICATIONS AND COLLATERAL: All members of IBTTA are welcome to place their publications in the registration area.

NEW ATTENDEES: First-time attendees will have an aquamarine ribbon attached to their badge. New IBTTA members will have purple ribbons. Get to know your new colleagues and help introduce them to other IBTTA members.

PRESENTATIONS: Presentations authorized for distribution will be posted on IBTTA's website within two weeks following the meeting.

RECORDING OF SESSIONS: Personal recording of any session is strictly prohibited. IBTTA reserves the right to video and record sessions for future repurposing.

REGISTRATION FEES AND EVENT TICKETS: Delegate and Speaker fees include all meals, functions and sessions. Tickets may be available to evening and other events.

SATISFACTION SURVEY: Please help IBTTA improve future meetings by completing the survey that will be emailed to you following the conference.

SPECIAL ACCOMMODATIONS: If you need special accommodations to fully participate in IBTTA events, please notify the staff at the IBTTA registration desk.

SPONSOR INFORMATION: Please support our generous sponsors and exhibitors by reviewing the Sponsor and Exhibitor section of this program as well as the material tables in the registration area.

AGENDA

SUNDAY MARCH 13, 2016

9:00am – Noon

ETAN Industries develops customized business process solutions for the tolling, utilities, telecom and cable markets. For the tolling community, we are proud to introduce FASTLane—a complete toll-by-plate transaction management system that provides unsurpassed financial accountability, operational flexibility and business process efficiency. We combine our advanced processing capabilities with award-winning contact center services, to help our clients operate more effectively, more efficiently and more economically—all without sacrificing customer service. Visit us at our booth to learn more about FASTLane! www.etanindustries.com

High-performance imaging systems, engineered

for accuracy. Perceptics designs and manufactures finely tuned, purpose-built license plate recognition (LPR) systems that take machine perception to a whole new level. For over 30 years, the U.S. government has trusted Perceptics LPR solutions for vehicle data collection at border crossings and security at some of the most highly sensitive facilities in the nation. Today, these high performance imaging systems are optimized for the revenue collection demands of electronic toll collection (ETC), providing more complete data capture, guaranteed accuracy, higher confidence levels, and more reliable automation capabilities to reduce the cost of collecting tolls. With imagers that can read plates other systems may not, and an OCR engine that learns from ongoing exposure to the widest possible range of plate types from across North America, Perceptics delivers performance you can truly bank on. Contact us to learn more about imaging technologies and their impact on ETC. www.perceptics.com

SWC brings proven experience in the highway toll, government, utility, telecommunications, cable, property management and education industries. Over the past 40 years, we have partnered with numerous clients to maximize the management of their accounts receivable, annually managing billions of dollars. From large Fortune 500 companies to small organizations, SWC has a proven history of connecting to understand the client's challenges, developing solutions that resolve receivables concerns, and delivering desired results. SWC also developed a guaranteed toll solution for video transactions, known as TollMaxx (tollmaxx.com). TollMaxx offers toll agencies the opportunity to leverage the capabilities and efficiencies of large volumes to reduce cost, eliminate collection risks and improve customer experience! Stop by our booth for more information. www.swcgroup.com

TrafficVision is a dynamic ITS software company that provides a value-added layer of intelligence analyzing existing traffic camera feeds. With this TrafficVisionTMC software in a traffic management center, highway and tollway management agencies can be proactively alerted to incidents in real time and can collect highly accurate data in a non-intrusive way. TrafficVisionTMC can seamlessly integrate into an agency's architecture and use the existing ITS infrastructure to make sense of the overwhelming numbers of cameras, reducing incident response times and deployment costs for data collection, leading to enhanced safety for motorists and effectiveness of an agency's ITS program. www.trafficvision.com

EVENING EVENT SPONSOR

Duncan Solutions, Inc. specializes in toll violation and revoked customer account revenue recovery. Our delinquent account collection service is customized to meet

the specific business rules of each client agency, with a unique focus on customer service. Customer contact and enforcement options include outbound calling, inbound call handling, customer service, tag holder account management, skip tracing,

and civil litigation. Through our Law Enforcement Systems (LES) division, our DMVRegInfo service provides a fast, easy and cost effective way to retrieve out-of-state registered owner information from all 51 states and Canadian provinces. Our embedded business rules and license plate configurations for the various states deliver improved hit rates and reduces toll revenue leakage. www.DuncanSolutions.com
