

WORKING GROUPS AND ROUNDTABLES

IMPORTANT! A session may be cancelled if there's not enough interest. Be sure to show your interest by checking the appropriate box(es) when registering.

Saturday, March 30, 2019 | 2:00pm – 4:00pm

YOUNG PROFESSIONALS COUNCIL – KICK OFF MEETING

Open to all interested attendees (who are under 35 years old)

The newly formed Young Professionals Council encourages young professionals (currently defined as 35 years old and under) looking to connect on a variety of topics. This is the next generation of diverse and future innovators in the toll industry looking to build long-lasting professional relationships with their peers in a casual and comfortable setting.

Discussion will be led by  Tyler Milligan, Managing Partner, Milligan Partners, Dallas, TX

Sunday, March 31, 2019 | 11:30am – 2:00pm

EXECUTIVE DIRECTORS ROUNDTABLE

By invitation

This roundtable is exclusively for Executive Directors or persons with similar titles that make them the chief staff executive of their toll agency, authority or concession. Only one individual per organization may attend. Participants will be polled in advance to identify the issues that will be discussed during the informal roundtable discussion. This is a good opportunity to discuss thorny issues in a quiet, off-the-record setting.

Discussion will be led by Chris Tomlinson, Executive Director, State Road & Tollway Authority and Georgia Regional Transportation Authority and President, IBTTA, Atlanta, GA

COUNCIL OF PLATINUM SPONSORS

By invitation

This roundtable is exclusively for the 18 members of the IBTTA Council of Platinum Sponsors (COPS). Discussion will focus on the initiatives that are in progress. An agenda will be provided by the Chair.

Discussion will be led by  Jim Wilson, PMP, Senior Vice President, TransCore, and Chair, COPS, Orlando, FL

Sunday, March 31, 2019 | 2:00pm – 5:00pm

TECHNOLOGY ROUNDUP

Open to all interested attendees

Part I:

TOLL AGENCY ROUNDTABLE

We'll open this session with a moderated conversation with a few agency members sharing what's keeping them up at night. Come and learn where their pain points lie and how they're being addressed by experts in the marketplace.

Discussion led by  Joe Averkamp, Vice President, Systems & Solutions, Parsons Corporation, Alexandria, VA

Presenters:

Jose Dios, Chief Information Officer, New Jersey Turnpike Authority, Woodbridge, NJ

Sabu Stephen, Director of Information Technology, North Texas Tollway Authority, Plano, TX

Brian Kelley, Chief Technology Officer, Ohio Turnpike and Infrastructure Commission, Berea, OH

Nick Roethel, Director, Technology Services, Bay Area Toll Authority, Metropolitan Transportation Commission, San Francisco, CA

Part II:

EMERGING TECHNOLOGIES

This segment of the discussion will bring together the technology experts from both public and private sector organization to offer insight and solutions that will sustain the toll industry into the future.

Discussion led by James Hofmann, Interim Executive Director, NTTA and Chair, IBTTA Emerging Technologies Committee, Plano, TX

CAV UPDATE

An update from IBTTA's Connected and Automated Vehicle Working Group is next. The discussion will revolve around specific risks and opportunities for the tolling industry associated with emerging CAV technologies.

Discussion led by  Lev Pinelis, P.E., Director, Tolling Operations & Innovation, Transurban, Alexandria, VA

IBTTA TOLLMINER™ UPDATE

The discussion will focus on the 2019 TollMiner™ initiatives.

Discussion led by Cindy Norcross, Database Manager, IBTTA, Washington, DC

Part III:

SECURITY AND OPERATIONS CONSIDERATIONS

This segment will wrap up the Roundtable with practical measures a toll operator can put in place to design and deliver a plan that ensures the security of their IT systems and their operational technology systems.

Discussion led by Mark Cantelli, Vice President and CTO, Public Sector, Conduent Transportation, Germantown, MD

Presenter:

Brian Kelley, Chief Technology Officer, Ohio Turnpike and Infrastructure Commission, Berea, OH

PROCUREMENT ROUNDTABLE

Open to all interested attendees

This session is a continuation of the conversation that started last fall during the IBTTA Annual Meeting in Baltimore. The public procurement process is something that all IBTTA members endure. Agencies issue RFPs that their consultants help draft and the vendors respond to. After a lot of time and money spent, hopefully there is a meeting of the minds and a new partnership. But often there is so much unsaid about the process and what could have made it better or help match up the agencies needs with the vendor's goods or services. Well-intentioned restrictions on communications, hinder the ability for the parties to collaborate to improve the process. Come listen and participate in an interactive discussion as representatives from the public agency, vendor and consulting worlds have a frank and open discussion on the public procurement process in the toll industry. We'll talk about what works, what doesn't and what could make the process better. This will be a discussion with audience members and the three anchor panelists. No PowerPoints, no pre-set presentations. The conversation will go where the audience participants take it and hopefully, we will all learn new ways to improve this age-old process!

Panelists:

Chris Tomlinson, Executive Director State Road and Tollway Authority (SRTA) and Georgia Regional Transportation Authority (GRTA), Atlanta, GA

Kevin Holbert, Executive Vice President, Business Development, ETC, Richardson, TX

JJ Eden, Vice President and Director of Tolling & Managed Lanes, AECOM, Raleigh, NC

TOLLING 101 — A PREP CLASS

Open to all interested attendees

The session for industry newbies will be interactive so bring your questions, no matter how basic, and ask the experts!

- » Toll Organizations, Facilities and Financing
- » Roadside Toll Collection
- » ETC Customers, Business Rules, Back Office Operations and Customer Service
- » Toll Interoperability

Discussion led by **Marty Stone, Ph.D., AICP**, Chief Operating Officer, Business Development, Egis (USA), Tampa, FL and **Tom Knuckey**, National Tolls Technology Group Director, Atkins N.A., Orlando, FL

IBTTA/PIARC IDEAS EXCHANGE: GLOBAL URBAN MOBILITY SOLUTIONS

Open to all interested attendees

This will be the first opportunity for IBTTA members to meet with the PIARC Committee on Mobility. Established in 1909, PIARC is The World Road Association that brings together the road administrations of 122 governments and has individuals, companies, authorities and organizations members in over 140 countries. During the Orlando meeting, the PIARC group will bring members from 15-20 countries who will be first-time attendees primarily from countries in European, Asian and African nations. Their overarching interest is on the global approach to mobility in urban areas as they share the common goal of an integrated, sustainable and safe transport system. Topics of discussion will include demand for transportation; managed lanes and bus rapid transit and perspectives on autonomous, electric vehicles and other emerging modes of transportation. Come meet with this group and exchange ideas with transportation experts from countries from around the world who are also excited to learn about U.S. developments.

Discussion will be led by **André Broto**, Director of Strategy, Vinci Autoroutes, Paris, France

Session Topics:

- » New Mobility Services in Belgium: Wanda Debauche, Belgium
- » Access to Public Transportation Mobility Services: Ok Namkung, South Korea
- » Bus transit in Argentinian Motorways: Oscar Farina, Argentina
