EMERGING & INNOVATIVE TECHNOLOGY APPROACHES
Thursday, April 2 | 10:00am – Noon
Open to registered attendees

James Hofmann, Chair of IBTTA’s Emerging Technologies Committee, will lead a discussion on new technologies that will have a big effect on the business processes, revenue streams and profitability of toll operators. Already the committee is looking at a variety of issues including the use of drones and ways to protect and monetize airspace over toll facilities. The Committee is also looking at the effects of CAVs on safety and ways to help agencies be more innovative. Join this roundtable to look at these and other technology topics.

Discussion led by James Hofmann, North Texas Tollway Authority and Chair, Emerging Technologies Committee

TOLLING 101
Thursday, April 2 | 1:00pm – 2:30pm
Open to registered attendees, included in YP-C one-day rate

This interactive session will add to the information already presented in the Toll 101 Video Series, so bring your questions, no matter how basic. The session will focus on some of the new issues facing the tolling industry, including the growth in third-party toll applications, congestion pricing and other forms of mobility payments. If you have not already watched the Toll 101 Series, please visit www.IBTTA.org/toll-101.

Discussion led by Marty Stone, Ph.D., AICP, Eegis Projects, Tom Knuckey, P.E., Atkins N.A. and Angela Fogle, FHWA Value Pricing Program

SANDAG – SAN DIEGO’S BOLD NEW TRANSPORTATION VISION IN FIVE BIG MOVES
Thursday, April 2 | 1:00pm – 2:30pm
Open to registered attendees

Transportation technology is evolving and changing how we travel daily. Embracing these innovations, the 5 Big Moves are key strategies that will enhance connectivity, increase safety and sustainability, and improve quality of life in San Diego. The 2021 Regional Plan will synchronize the 5 Big Moves to deliver a fully integrated, world class transportation system for the San Diego region. The 5 Big Moves include: Complete Corridors, Transit Leap, Mobility Hubs, Flexible Fleets and the Next OS. Come ready to provide the SANDAG team with your input and learn how the private and public sectors are embracing these innovations across the world to improve the movement of people and goods.

Co-presented by Hasan Ikhrata, Executive Director, Ray Major, Chief Data Analytics Officer/Chief Economist and Coleen Clementson, Director of Regional Planning, SANDAG
