

# The Future of Big Data

J.J. Eden

Providing drivers more choices for their commute

The background is a dark blue field featuring a subtle, repeating pattern of light blue hexagons. Overlaid on this grid are several streams of small, glowing particles. These particles, in shades of light blue and green, flow from the top-left and bottom-left corners towards the right side of the frame, creating a sense of dynamic movement and data flow.

# Big Data Priorities

Purpose driven future  
of more efficient  
revenue collection

Commercially  
available as -a-service

Mobility  
value focused

Multiple roadside identification solutions

---

Mobile based payments

---

Fully automated customer service

---

Mobility pricing plans

---

Statewide transportation account

# Big Data Projects

# Connected Vehicle Data

**wejo** | GENERAL MOTORS

Data pulled every 3 seconds

From ignition on to ignition off

---

300,000 vehicles in North Carolina

Current market share

## Instant Data

Non-intrusive data collection without expensive “tube” or “clicker” counts

## Immediate Detection

Identify real time events without expensive roadside infrastructure

## Data Share

Can be augmented by multiple vendors to validate data for traffic planning and operations

# Integrated Data Platforms

## How should we manage data?

- Capture unstructured and structure in real time
- Customer comments
- System health
- Vehicle data (including speed)
- Customer inquiries

## How do you make sense of the data?

- Interoperability for data
- Tailor data to individual needs from non-compatible systems
- Many traffic and customers into one view to increase mobility options
- Run reports in minutes not hours/days, weeks or months

1

Only retrieve and keep  
the data needed

2

Reduces routine and  
repetitive work that  
is prone to error

3

Provide single source of  
data to all users  
(Allows reports to dynamically  
change as business needs change)

# Vehicle Technology

1 Infrastructure to vehicle

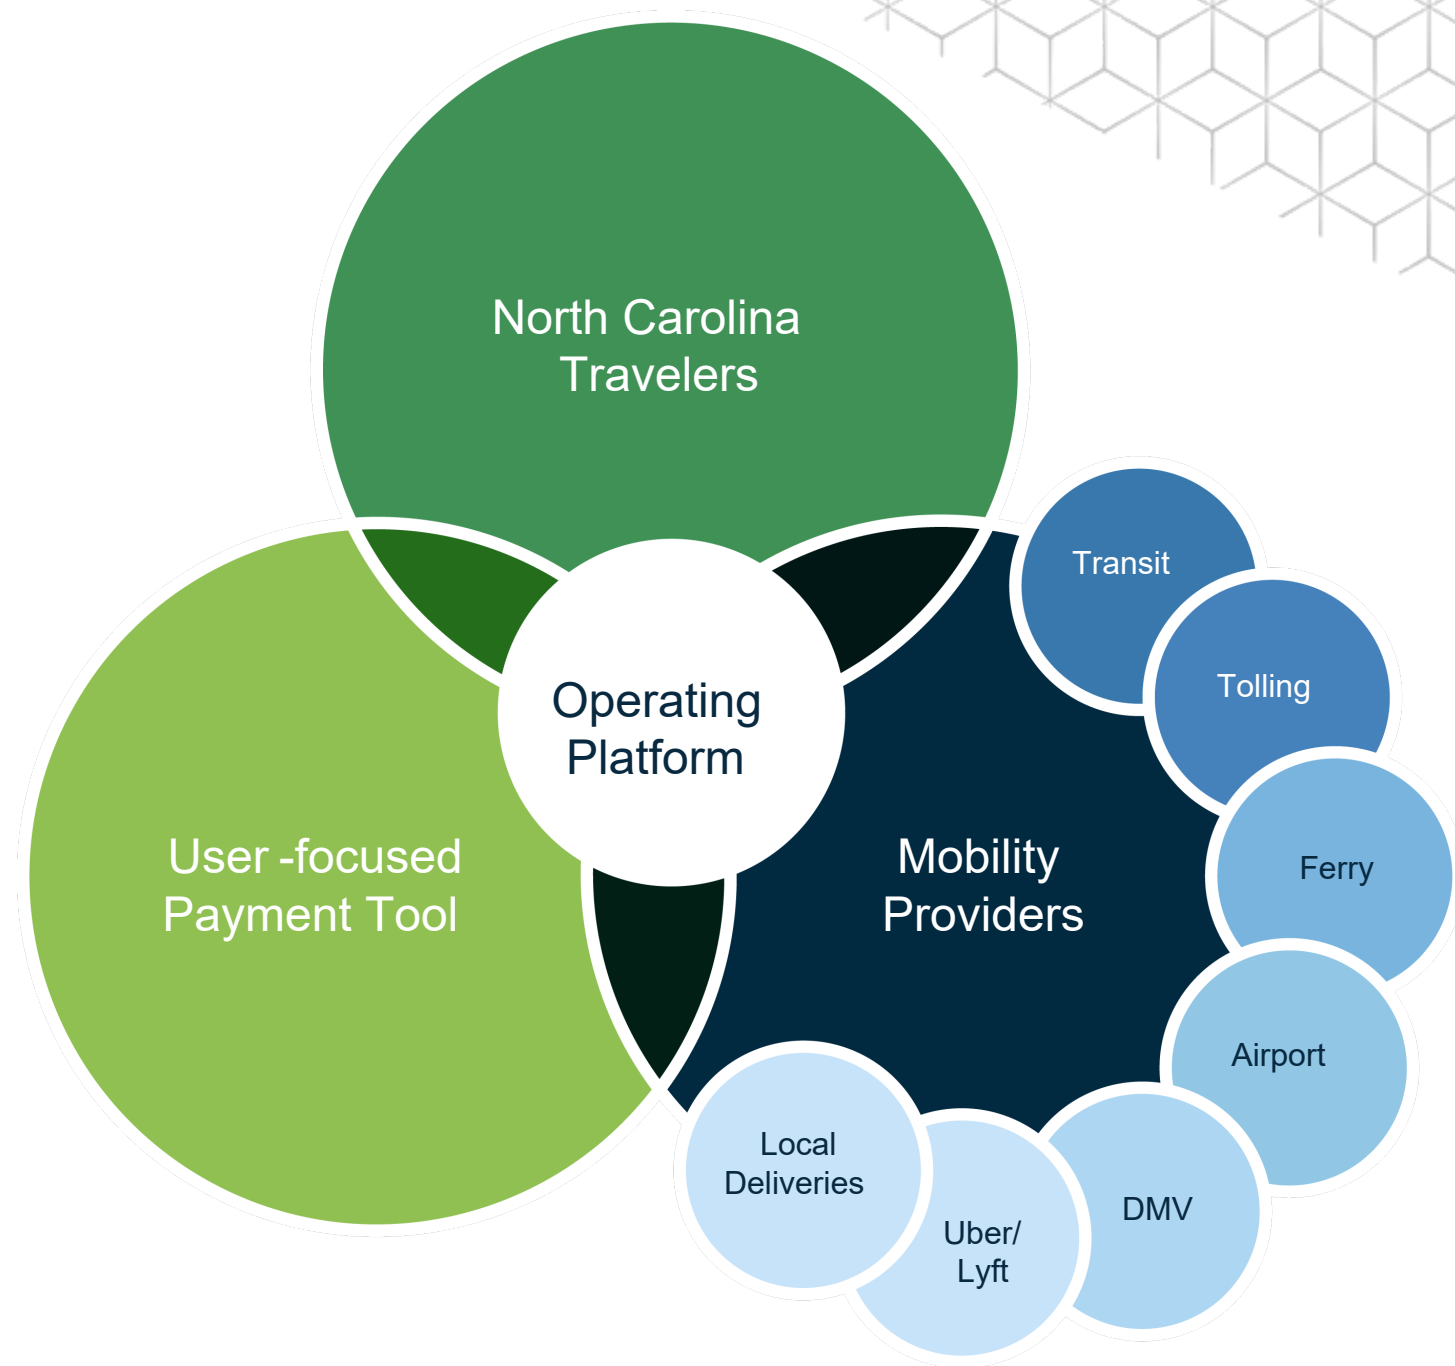

2

3 Vehicle to infrastructure

# Statewide Transportation Account

Thank you!
