Hatch Chiles are Available on Every Meal!

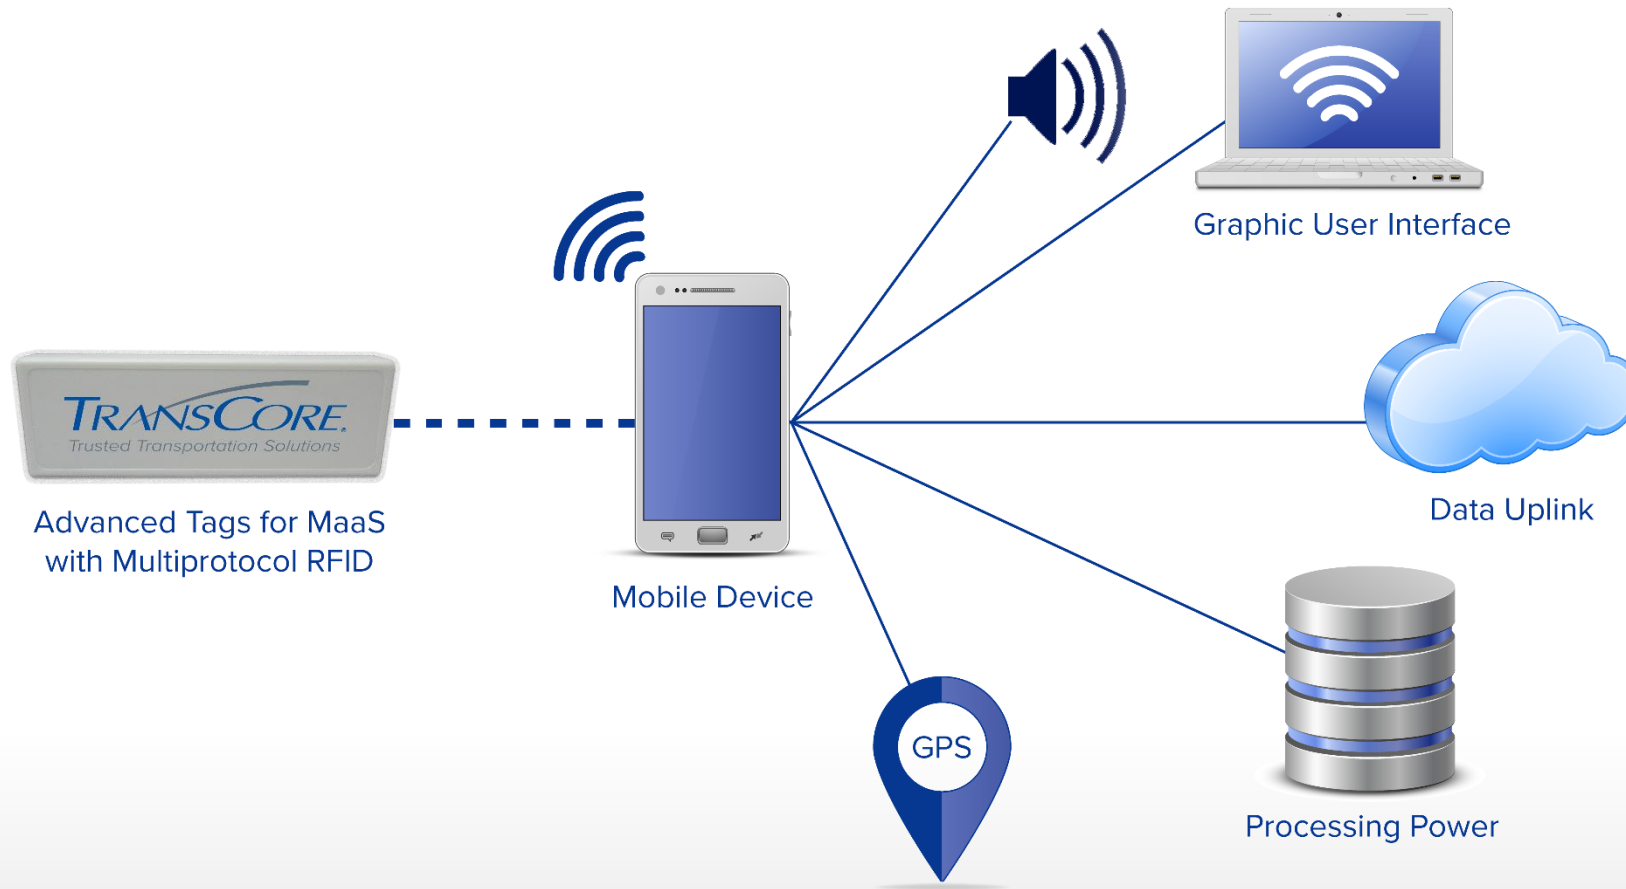

Trusted Technology Partner – Continuous Innovation

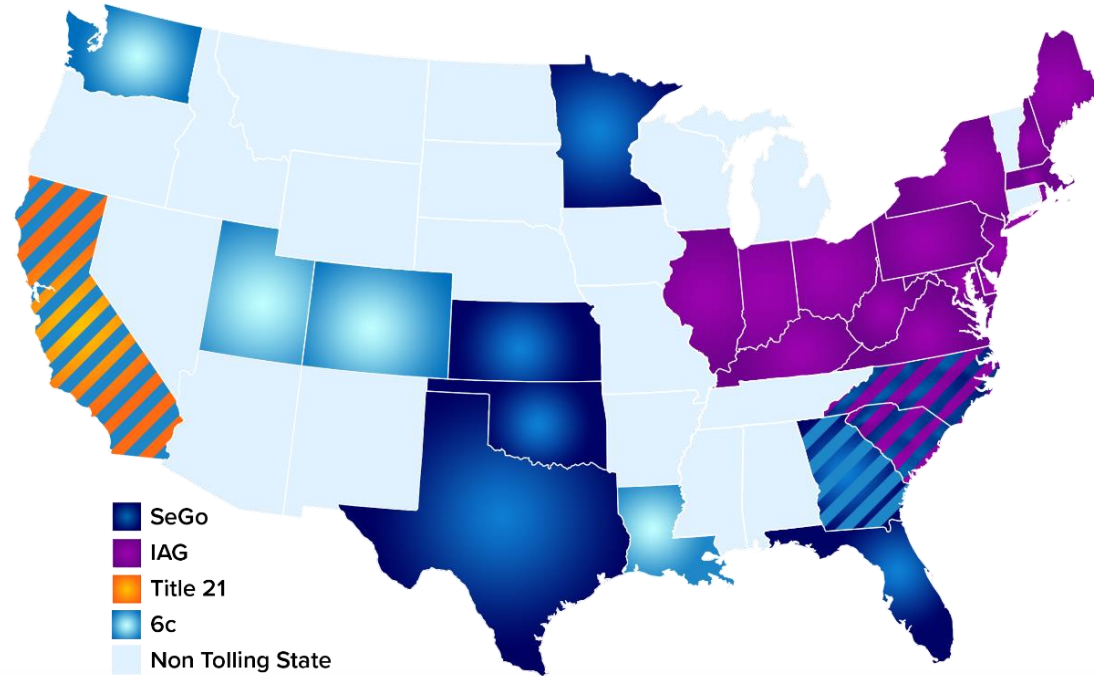

Next Generation Tags – Blue Tooth Low Energy (BLE)

Next Generation Tags – BLE

Trusted Technology Partner – One Tag

SeGo / IAG / 6C Protocols

Trusted Technology Partner – Innovation, Security, NIOP

BLE Tag – National Pass

- Encryption
- Declaration bits included in tag read syntax
- Enforcement
- Interoperable

Tri Protocol Tag – National Pass 2

- *The quickest and most economic path to true national interoperability*
- No infrastructure changes required
- Target market to those that need / want national interoperability
- Access to over 95% of active toll lanes
 - Some 6C lanes currently in use do not meet interoperability criteria
- Secure transaction and protocols
