OCTOBER

Global Tolling Summit
October 2022
Location tbd

Webinars will be developed and posted
throughout the year.

RESILIENCE. LEADERSHIP. OPPORTUNIT

Technology Summit

March 20-22, 2022 | Orlando, FL | Renaissance Orlando at SeaWorld

The annual IBTTA Technology Summit is where the tolling industry comes to do business while taking in an educational program built around what's new—and what's next. It's a summit of superlatives: the first big IBTTA meeting of the year, the largest and broadest session focus and the biggest exhibit hall this Summit has ever seen. The Technology Summit is a critical event that both reflects how technology is impacting tolling while shaping the future of innovation in the industry. The program officially kicks off on March 20, but before that, on March 18 and 19, there are two days' worth of hands-on workshops, executive roundtables, pre-conference meetings and service project opportunities. And, attendees can head to SunTrax for a great technical tour hosted by Florida's Turnpike Enterprise. This event will be the first big opportunity of 2022 for tolling professionals, organizations and vendors to get together, share knowledge, explore new solutions and spark new business opportunities. No professional in the tolling industry should miss this one – check the details and join us.

Road Usage Charging & Finance Conference

May 15-17, 2022 | Denver, CO | Hilton Denver City Center

The Infrastructure Investment and Jobs Act of 2021 signed into law by President Biden holds the promise of making historic investments in America's roads, bridges and rails, tackling the climate crisis, advancing environmental justice, and investing in communities that have often been left behind. However, despite this new legislation, stabilizing the revenue stream to support transportation infrastructure is still problematic. Auto manufacturers have pledged to move rapidly toward producing only electric vehicles. This means that fuel tax revenues will continue to decline, leaving the highway trust funds of the states and federal government depleted and at great risk. In this environment, states are moving to alternative methods of paying for road infrastructure, including tolling and road usage charging (also known as VMT or MBUF). The policies, technology, marketing, communications, public acceptance, implementation and operation of tolling, pricing, and RUC are converging. During this conference, we will look at case studies, best practices, and lessons learned from successful and unsuccessful implementations of tolling and RUC all over the world. We will also explore the convergence of tolling and RUC.

Partner organizations include:

- American Association of State Highway & Transportation Officials (AASHTO)
- Federal Highway Administration
- ITS America
- Mileage-Based User Fee Alliance (MBUFA)
- The Eastern Transportation Coalition

Maintenance, Engineering & Roadway Operations Workshop

June 26-28, 2022 | Cleveland, OH | Hilton Cleveland Downtown

IBTTA's premier maintenance, engineering and roadway operations workshop is headed to Cleveland in 2022. Get your hands dirty with panels and presentations led by engineers, construction and maintenance practitioners. And, the IBTTA Foundation's Annual Service Project, hosted each year in conjunction with this workshop, will also take place in Cleveland. Don't miss this opportunity to learn how to make your organization operate at the highest levels of efficiency and customer service.

90th Annual Meeting & Exhibition

September 18-20, 2022 | Austin, TX | Hilton Austin

A world-class industry educational and networking event that doubles as a family reunion, the Annual Meeting & Exhibition returns to Austin after a pandemic delay in 2020. As one of the fastest-growing cities in the U.S., and one that's at the forefront of developing a modern multimodal transportation system, Austin will serve as an ideal backdrop for IBTTA's 90th Annual Meeting, where tolling industry leaders will gather to reaffirm relationships, share insights and strategies and ultimately strengthen the entire industry through the power of community and collaboration. The event offers something for everyone—including companies and service providers to the tolling industry who can showcase their solutions and generate leads for new business on the busy exhibition hall (or increase their recognition among industry leaders through one of the numerous sponsorship opportunities available throughout the event). Mark your calendars now and make plans to meet us in Austin!

IBTTA WEBINARS RETURN IN 2022

IBTTA will continue to offer the ease and convenience of its member-driven webinars in 2022.

Led by tolling industry leaders and always focused on the industry's hottest topics, the 2022 IBTTA Webinar Program will make it easier for every professional in the tolling industry to broaden their knowledge base and know more about what's happening in their industry today, as well as what's coming down the pike tomorrow.

Additionally, IBTTA's webinars are always recorded and available to IBTTA members for free after the fact, meaning you can have these programs on-demand and use them on your own schedule.

Stay tuned to IBTTA.org/events for more information on topics, dates and times for this year's webinars.

IBTTA

TOLLING. MOVING SMARTER.

The International Bridge, Tunnel and Turnpike Association (IBTTA) is the worldwide association for the owners and operators of toll facilities and the businesses that serve them. Founded in 1932, IBTTA has members in 26 countries on six continents. Through advocacy, thought leadership and education, members are implementing state-of-the-art, innovative user-based transportation financing solutions to address the critical infrastructure challenges of the 21st Century.
