

## **DIRECTOR OF TRANSPORTATION SYSTEM OPERATIONS**

### **Annual Salary Range:**

Director II - \$157,477 – \$244,089

**First Review of Applications:** May 13, 2022

**Expected Start Date:** June/July 2022

### **Role**

The Director of Transportation System Operations will oversee and provide leadership for the programs, services, and operations of the Regional Transportation Services Department. This position is ideal for a senior manager or executive with experience overseeing operations-based transportation programs and a desire to provide innovative commuter solutions to the San Diego Region.

Direct, plan, manage, and coordinate the development and implementation of Regional Transportation Services Department goals, objectives, policies, and priorities; establish, within SANDAG policy, appropriate service, resource, and staffing levels; allocate resources; accordingly, ensure department programs and projects are integrated and woven into strategic agency initiatives.

### **Overview of the Regional Transportation Programs Department**

The San Diego Association of Governments (SANDAG) manages several transportation programs and services for the San Diego region. These services include technology systems that support toll operations (State Route 125 Toll Road (SR 125), I-15 Express Lanes, and the cross-border State Route 11 (SR 11) and Otay Mesa East Port of Entry tolling facilities), revenue forecasting and financial performance, Intelligent Transportation Systems (ITS), and customer service and account management. Specific programs include the regional tolling and managed lane facilities, Regional Arterial Management System, and Integrated Corridor Management System, planned smart intersection system (deployed within the next three years), as well as the region's 511, Freeway Service Patrol, Motorist Aid, and Transportation Demand Management (TDM) programs. Together, these programs help ease traffic congestion by providing commuters with options, services, and real-time travel

information to help reduce commute times.

### **Experience and Qualifications**

A bachelor's degree with major course work in public administration, transportation planning, business administration, finance, or a related field. A combination of education and recent work experience may be considered in lieu of a degree.

Eight years of progressive career development managing and administering complex commuter-based or tolling programs and services, including four years of supervisory and management experience.

### **Benefits and Salary**

Our benefits include health, dental, and vision insurance as well as employee assistance, wellness, and work/life balance programs. Retirement and financial security benefits are provided through a pension plan and contribution to the SANDAG deferred compensation program. SANDAG offers flexible work schedules and employees are provided with paid time off and paid holidays. The candidate selected for this position will be expected to work in-person in SANDAG's San Diego office.
