Tolling is one of the most effective, equitable ways to pay for highway transportation and deliver the safety and reliability that users expect. As governments around the world scramble to generate funds for highway construction, maintenance and operations, tolling is becoming one of the most prominent tools in the transportation funding toolbox.

**FAST FACTS**

- **35** Number of U.S. states and territories with at least one tolled highway, bridge or tunnel (Source: IBTTA, 2017)

**ABOUT IBTTA**

The International Bridge, Tunnel and Turnpike Association (IBTTA) is the worldwide association for the owners and operators of toll facilities and the businesses that serve them. Founded in 1932, IBTTA has members in 25 countries on six continents. Through advocacy, thought leadership and education, members are implementing state-of-the-art, innovative user-based transportation financing solutions to address the critical infrastructure challenges of the 21st Century. For more information, visit [www.IBTTA.org](http://www.IBTTA.org) or join us on Twitter @IBTTA or #TollRoads.
BY THE NUMBERS IN EUROPE

Tolling is one of the most effective, equitable ways to pay for highway transportation and deliver the safety and reliability that users expect. As governments around the world scramble to generate funds for highway construction, maintenance and operations, tolling is becoming one of the most prominent tools in the transportation funding toolbox.
